

Faudi Filter Elements

**Coalescer/Separator Cartridges
for Aviation Fuel Qualified to EI
1581 7th Edition**

**Dirt Defence Filters 2" or 6"
EI 1599 2nd Edition**

**Microfilter 4" or 6"
EI 1590 3rd Edition**

**Separator Cartridges for
Aviation Fuel Qualified to EI
1581 6th Edition**

AFGUARD®

Electronic sensor for detection of free water in aviation fuel according to specification EI 1598, 2nd Edition. The AFGUARD® sensor is qualified for use as an alternative to Chemical Water Detectors (CWD) by Joint Inspection Group (JIG). The AFGUARD® is regarded as fail safe and fully hazardous-area (ATEX and IECEx) approved. Sensor System conforms to ISO 13849 standard. The FAUDI Aviation AFGUARD® is a measurement system, which supervises the quality of Jet Fuels.

The AFGUARD® is recommended for measurement of particulate matter in Jet Fuel like free water. The AFGUARD® is a scattered light sensor and is designed to provide inline control solution for a variety of processes.

Functionality: A precisely defined, constant light beam penetrates the process medium. Scattered light from particles (undissolved liquids like free water or gas bubbles) in the medium is detected by photo diodes. It is also possible to determine a water slug in Jet Fuel.

The AFGUARD® can be used perfectly to detect the functionality of Filter Water Separators or to measure the water absorbing performance of Filter Monitors. This can be done by measuring the level of free water detected by AFGUARD® sensors, placed at the vessel in let and outlet. Free water will be detected and, with AFGUARD® in place, the monitors are under constant surveillance to insure their proper function.

Application area (with reference to individual EI standard) EI 1598 2nd Edition sensor can/shall be used in conjunction with EI 1581 filter/water separators, EI 1599 dirt defence filter as well as other technologies

LETTER OF AUTHORITY

Dear Sirs,

Herewith we - FAUDI Aviation GmbH, Scharnhorststraße 7 B, D-35260 Stadtlendorf, Germany
- are stating that

**GLOBE HI-FABS LLP
14/1 Milestone, Mathura Road
Faridabad - 121 003, Haryana
Delhi National Capital Region
INDIA**

is our official appointed agent and distributor in INDIA, NEPAL and SRI LANKA and he is authorized to collect tenders and submit quotations on behalf of FAUDI Aviation GmbH for the products of **FAUDI Aviation FILTRATION product range.** FAUDI Aviation is committed to GLOBE HI-FABS LLP to execute any order awarded to, by the customers.

The present letter has been issued as short form of the agency distributor agreement signed by both GLOBE HI-FABS LLP and FAUDI Aviation GmbH, which remains the only and unique document regulating the contractual condition between our companies.

Yours faithfully,

FAUDI Aviation GmbH
